

Architectural Millwork

Custom Molding & Paneling
for commercial and residential projects

*High-end
products bring
you in.
High-quality
service brings
you back.*

*What commercial or
residential wood molding
and paneling needs can
we help you with?*

Mission Statement

Our mission is to provide premium wood products to our customers on large and small-scale jobs, without sacrificing the quality, workmanship, or attention to detail inherent in a locally owned and operated company. Our customers receive the best of both worlds—the large manufacturer's ability to produce large volume runs, with the customer service and quality assurance of a small woodworking shop.

Cherry & Birds Eye Maple Paneling /
Two Centerpointe

What We Offer

Welcome to Architectural Millwork Manufacturing Company, your wood molding and paneling specialist. We offer the following to meet your standard or highly specialized custom molding and paneling needs:

COMPLETE MILLWORK PACKAGES

Available for large-scale commercial projects and custom residential.

CUSTOM PROFILE DESIGN

We can work with you one-on-one to create completely unique profiles to add your own personal touch to your project.

CUSTOM RADIUS MILLWORK

For handrails, circular window casings, archways, curved walls and other applications.

Maple Handrail / Two Centerpointe

IN-HOUSE KNIFE GRINDING

For custom profiles we can match an existing pattern for fire/water damage replacement, additions and remodels, or you can design your own unique pattern.

CURVED AND RADIUS MOLDINGS

Made to match your existing profiles or choose from our stock patterns. We can create custom molding up to 11" wide. Milled from most any wood species (see inside back page).

RADIUS TO MATCH

If you don't see what you are looking for, call us. We have a huge inventory of custom knives.

SPECIALTY ITEMS INCLUDE

Curved Crowns	Chair Rail
Archway	Jambs (template required
Hand Rails	in most cases)
Bases	

Hyatt Regency

Grand Summit at Lake Tahoe is an example of a complete millwork package (available for large-scale commercial projects and custom residential).

What We Offer

Cherry Paneling & Trim / Residence

Peterkort / Cherry Paneling & Trim

Maple Paneling & Trim / Lewis and Clark Library

WOOD PANELING

We specialize in curved (radius) or straight paneling. Our strong relationship with our paneling supplier allows us to closely monitor the quality of our custom and production layups.

We can provide finished or unfinished paneling in any available wood species. We can apply a wide selection of flitches to any available core, from particle board and MDF, to plywood and solid stock cores. We can also layup on fire-rated or standard cores. We can book match, sequence match, slip match, or end match your veneers.

When fabricating complete paneling packages we can provide sequence matched uniform sets or blueprint matched panels and components. Additionally, we can apply standard and solid stock edge-banding. Please call us at 1-800-685-1331 or contact us online for further detailed information on our paneling products.

WOOD SPECIES

(partial list only; others available upon request)

We have a wide variety of imported and domestic hard and soft woods to choose from including super-tight Export Grade Clear Vertical Grain Fir. We also offer:

Flightcraft

Above shows an example of a complete millwork package (available for large-scale commercial projects and custom residential). Millwork included custom radius millwork for handrails, circular window casings, archways, curved walls, and other applications.

GIVE US A TRY

If we don't have what you need, chances are we can make it. Most moldings can be manufactured to fit radius conditions (templates are required in most cases).

DELIVERY

Custom millwork orders require scheduling. The actual time frame can be as little as one week for delivery (depending on location), and up to four weeks for delivery during busy times. You can call for an approximation of order completion and delivery dates. Once you have placed an order, a delivery time will be estimated. All orders are produced on a first-come-first-serve basis.

Sample panel as seen at the 2003 Home Builders Show in Las Vegas

"You have been extremely helpful, honest, reliable, competitive in price (and if you couldn't be competitive in a product, you let me know up front), punctual, and the quality of all the millwork we've ordered has been great. To top it off, you are really friendly."

— Sue Jones, Buestad Construction Inc.

"I would like to personally thank you for your involvement in the successful outcome of this project. I look forward to the next time we can work together."

— ISEC, Inc.

"I want to thank you for your patience and understanding with our request for assistance on our molding. The molding is a fantastic match! Your company certainly made it so much easier for us to obtain the quality workmanship

that I desire for our home. We will definitely refer others to your company with the same needs. Thank you again for delivering such terrific workmanship and service."

— Home owner, CA

"I just wanted to let you know how much the ISEC team appreciates your workmanship on the Sanctuary project. The clubhouse is a beautiful building thanks in great part to your product. The Architect, Owner and G.C. were all very pleased. I hope to work with you on another project soon."

— Kelly Martin, ISEC

In our long working relationship with Architectural Millwork they have consistently stood behind their quality products and offered a level of personal customer service that is a rarity in this industry."

— Dan Shutes, Regional Manager
Tree Products Hardwoods Inc.
